

Cleanroom Supplies

ESD Cleanroom Jumpsuit Series: CR-JUMPSUIT-ESD

Features:

- Suitable for use in semiconductors, electronic communication, integrated circuit, and microelectronic manufacturing facilities, and research laboratories
- Made of ESD anti-static fabric
- Available sizes from Small to 3X-Large
- 5mm stripe/grid fabric design
- Zipper design
- Available in light blue, white, other colors available upon request

Application:

- Typically worn by those in the semiconductors, electronics, biotech, automotive, food processing and pharmaceutical industries
- Used to control static charge and minimize the likelihood of ESD events occurring on static sensitive devices
